a little bit about me...

I'm a self taught photographer who's curiosity began with film photography. I started out documenting my everyday life and this has heavily influenced my documentary style approach to photography.

I have two ways I like to approach weddings, both serving one purpose; capturing the spirit of the day. I like to get up close and personal with my subjects or be the fly on the wall.

Creating imagery that feel timeless, cinematic, intimate, and soulful. I craft radiant, tasteful, and emotionally rich visuals. With an approach that captures a quiet elegance. Blending artistry with authenticity.

WHY CHOOSE FILM?

Here are some examples of moments captured on 35mm film. If you want timeless and soulful images that have a tangible energy then this is for you.

If you're wanting a slower pace and more stylised images for your special day I would recommend 120mm film. This prints beautifully as well.
